ONE BROTHER SLAYS THE OTHER.

A Feud Has Existed Between Noble and William Kent Since Their Father's Death.

Girard, Ill., Dec. 5.—The bitter feud of brother against brother, which has existed between Noble and William Kent, living near Girard, for almost a year past, resulted in a tragedy Saturday on the Chicago and Alton passenger train enroute from Springfield to Carlinville. Just as the cars approached the coal shaft a short distance from Girard.

The victim was Noble Kent, the elder brother; his slayer was William, who escaped from the train after shooting Noble dead.

Noble was in the custody of Sheriff Davenport of Macoupin county, and was being taken to Carlinville to answer a charge of attempting to kill William a short time after the death of their father, last March.

On the brink of their paternal parent's grave, Noble took a solemn oath to have the life of William, whom he blamed for being disinherited by the father. Once he attempted to carry out his oath. He succeeded in inflicting an almost mortal wound on William, who hovered for months between life and death, and left his bed a cripple for life as a result of the injury sustained at the hands of his brother.

Saturday the younger brother got the vengeance, which, apparently, he had been craving since he fell a victim of his brother's wrath.

Noble has been at large since William was shot. He was caught in Toneska, but managed to elude the officers. Finally he was rounded up in Springfield, and committed to jail on petty charges, the officers keeping him in order to get the reward offered for his capture. Saturday the reward was paid, and he was turned over to Sheriff Davenport.

Native Policeman Shoots Soldiers.

Ponce, Porto Rico, Dec.—The transport Berlin, with the First Kentucky regiment on board sailed yesterday for Newport News. General Guy W. Henry and staff were also on board the Berlin, bound for San Juan. General Burke succeeds General Henry, the latter taking command at San Juan. Gen. Brooks, Mr. Brooks, General Sheridan and Mrs. Sheridan will embark on the Berlin at San Juan.

In a disturbance here Saturday a native policeman shot some United States soldiers and wounded two Kentuckians. As it was feared the soldiers would retaliate, the regiment was confined to quarters, and the native police withdrawn from duty. A double patrol of regulars has been detailed to police the town.

ATE POWDERED GLASS.

Daisy Cook sought Death by a Most Horrible Method.

St. Louis, Dec. 5.—Daisy Cook brooded over her woes at the Workhouse Friday evening, and decided to end her life. She tried to hang herself to one of the iron bars with a cord made from pieces of her clothing. The cord broke and she was compelled to abandon the effort. Next she tried to hold her breath until she choked to death, but she did not succeed. She even clutched her throat, but she could not shut off her breath. In one corner of the large, dimly-lighted room she found an old bottle, which had contained medicine. With a rock she crushed the glass into powder and swallowed it, with a cup of water. Her agonizing groans as the particles of sharp glass gnawed at her vitals were pitiful. When she could stand the pain no longer, she confessed to the doctor what she had done. He was helpless to alleviate her suffering.

She was removed to the South Side Dispensary, where Dr. Webster taxed his medical skill to relieve her. When he had dosed her with castor oil the doctor forwarded her to the City Hospital. There she is said to be in a critical condition.

Two years ago Anna Cook, as she was known, was a train operator for the Missouri Pacific Railway at Cuba, Mo. Today she is a wreck.

Long Session of Peace Commission.

Paris, Dec. 5.—The American peace commission held a long conference, beginning at 10 o'clock a. m., and only had a brief recess for lunch, before going to the foreign office to meet the Spanish commissioners at 3 p. m. The Americans apparently had changed the form if not the substance of some of their demands, as a result of their deliberations during the past three days. Secretary Moore of the United States commission was engaged far into the night revising a draft of the treaty of peace.

The American commissioners, it is possible, though improbable, will settle all the points of the treaty leaving
